i have tried many time i cannot lock the modem.please help A: There are three ways of setting the lock code of the modem, On modem screen while turning on the modem, press \* combination (usually 5 buttons on modems) After modem is turned on enter your pin on the dialpad and press \* key (usually \* on the dialpad) After modem is turned on dial an incorrect pin and it will display a message "Code incorrect" after that dial the correct pin and it will say that "code locked" the method 1 is the most reliable method. You can set the lockcode of the modem by pressing the above mentioned buttons.
